# SALIENT SECURITY PLATFORM

The Salient Security Platform represents the latest innovation for intelligent security. CompleteView 20/20 is the next-generation video management solution that is simple, scalable, and secure with an intuitive, unified user experience across all platforms. With its superior command and control tools, multi-point monitoring capabilities, and third-party integrations, CompleteView 20/20 delivers a comprehensive security management solution to meet your current and future security needs.

- ✓ Intuitive UI/UX
- ✓ Device Agnostic
- ✓ Painless Deployment

- ✓ One-to-Many Sites
- ✓ 3rd Party Integrations
- ✓ Current and Future Needs

- ✓ 360 Situational Awareness
- ✓ Command & Control Hub
- ✓ Anytime, Anywhere Surveillance

## WHAT'S INSIDE SALIENT SECURITY PLATFORM

### CompleteView 20/20

Next-generation video surveillance software

### LPRTracker

Powerful license plate recognition recording and alerting capability

### TransactionTracker

Fully-integrated video solution that can synchronize POS transactions, video data, and exception-based reporting systems

### ViewPoint

Technology that turns any desktop computer screen into a video feed for monitoring computer activity

### Video Synopsis

Video analytics that transform video into actionable intelligence

## COMPLETEVIEW 20/20 MUST SEE FEATURES

### CV GeoView

Select cameras on a map and create a view layout on the fly from selected cameras. CV GeoView instantly creates layouts of cameras, allowing live monitoring personnel to follow suspects easily.

### Custom Tabs

Create tabs from individual cameras and view layouts, allowing operators to switch between the most important cameras and views much more quickly.

### Text Search

Search for events, cameras, and other activities by typing key words into a search box. The search feature instantly narrows down events, cameras, and views to the keywords.

### Automatic Map Switching

Allow operators to see a camera's location in relation to the facility being monitored. A camera displayed in Alarm View that is also located on a corresponding map will automatically display in the Map panel.

### Remote Investigations

Download and search remote video investigations much more quickly through the bandwidth-reducing benefit of Dynamic Resolution Scaling, now available in Playback. Playback and search exceptionally fast, while exported video resolution is downloaded at full resolution at the same time.

## THE 5 MOST SALIENT POINTS

# ARE YOU READY FOR THE FUTURE?

Take Salient's Video Surveillance IQ Survey and see how you score!
